

HANVITA MUTYALA

Princeton, NJ | 732-915-0540 | hanvitamutyala@gmail.com | linkedin.com/in/hanvitamutyala/

EDUCATION

Purdue University

B.S. Computer Science, Minor in Management, Certification in Applied Data Science

West Lafayette, IN

August 2023 – December 2026

Relevant Coursework: Artificial Intelligence, Data Structures and Algorithms, Systems Programming, Data Mining and Machine Learning, Computer Architecture, Problem Solving & Object-Oriented Programming, Programming in C

EXPERIENCE

Handshake AI Fellowship (Project Helix & Project Helix Sourcing)

Remote

AI Engineering Fellow

March 2026 - Present

- Developed adversarial test cases to benchmark **LLM performance** on complex engineering tasks, identifying failure points and providing actionable improvement insights.
- Evaluated **open-source pull requests** to assess technical complexity, guiding effective benchmarking tasks for LLM capabilities.
- Advanced AI testing processes, improving **model reliability** and informing engineering strategies for challenging technical scenarios.

Narb

Remote

Software Engineering Intern

May 2025 – August 2025

- Designed and implemented a points-based location scoring system for a gamified GPS habit tracker, rewarding healthy behaviors and penalizing unhealthy ones, **improving core app features and user experience**.
- Helped launch a **multi-chatbot platform** integrating multiple LLMs to provide consolidated answers, enhancing information retrieval efficiency.
- Collaborated cross-functionally to iterate on features, optimize **AI integration using Cursor** and Vibe Coding, and deliver MVP functionality under tight startup timelines.

TruBridge Healthcare, Extern

Remote

Data Analytics Extern

March 2025 – May 2025

- Conducted exploratory data analysis on **100K+ healthcare records**, uncovering patterns in social determinants of health and income disparities across NYC boroughs.
- Built a **dashboard using Claude AI Interface** and **Python in Google Colab** to visualize findings for leadership, translating complex analyses into actionable recommendations.
- Delivered a final presentation proposing data-driven interventions, such as rotating monthly health camps in underserved communities, **influencing organizational strategy**.

The Data Mine, BASF

West Lafayette, IN

Data Analyst

August 2023 – December 2023

- Forecasted analogue years for wine varietals using LSTM, RNN, and KNN models, **improving predictive accuracy for agricultural project planning by 74%**.
- Presented findings and recommendations to stakeholders, directly influencing R&D decision-making and project prioritization.
- Collaborated in **agile workflows**, contributing predictive analytics that guided strategic research initiatives.

PROJECTS

Customer Churn Analysis (**Tableau Dashboard**)

- Conducted analysis of **10,000+ customer records** to uncover key retention trends and drivers of churn.
- Designed and implemented interactive **Tableau dashboards** that visualized patterns across multiple dimensions (age, activity).
- Analyzed data to extract meaningful insights on user behavior, showcasing strong **data storytelling and analytical capabilities**.

Amazon Product Analytics Case Study (**User Engagement Simulation**)

- Performed a product analytics simulation to evaluate early user engagement and purchase behavior patterns.
- Evaluated key product metrics including **DAU and retention rate** to diagnose user behavior and trends.
- Developed data-driven recommendations for improving processes and boosting early conversion rates, showcasing **advanced analytical reasoning, metric evaluation, and product strategy thinking**.

CERTIFICATIONS & LEADERSHIP

- Accenture North America - Project Management Simulation:** Applied Agile, Hybrid, and Plan-Driven methodologies to real-world project scenarios; delivered stakeholder updates to senior leadership
- Deloitte - Data Analytics Simulation:** Completed a Deloitte job simulation involving data analysis and forensic technology, created a data dashboard using Tableau, used Excel to classify data and draw business conclusions

SKILLS

Technical: Python, SQL, Tableau, Power BI, Java, C, C++, HTML/CSS, JavaScript, Linux, Bash, LLMs, Git, Replit, Claude AI Interface, Microsoft Office., Graphic Design, Cursor, Google Colab

Soft: Leadership, Communication, Collaboration, Critical Thinking, Planning, Adaptability, Attention to Detail

AWARDS

Presidential Volunteer Service Award (Gold), NCWIT Aspirations in Computing, Girls Who Code Hackathon Award, Distinguished Service Award (HOSA), Girl Scouts Gold Award
